1. COMMON ORGANISING CONDITIONS

1.1. Characteristics of events

The characteristics of the types of events to be included in the Speed Championship shall be determined by the CMF. These are:

1.1.1. Autosprint (Single Car Start)

Events run on a gravel or tarmac or mixed surface route of circuit type having the Start and Finish being on the same line and each run shall comprise of two or three laps.

1.1.2. Rallysprint (Single Car Start)

Events run on a gravel or tarmac or mixed surface route along a road or track with numerous bends. The Start and Finish are not located in the same line and a Run covers the distance from the Start to the Finish along the designated route.

The total length of the Run must be minimum 2 (two) km and maximum 5 (five) km for both Autosprint and Rallysprint.

1.2. Marking of the Track

1.2.1. Route Flags

In all cases where the surface on the inside of bends is such that cars can take a shortcut, yellow flags on posts must be placed on the inside of such bends, marking the course. Such flags should carry a penalty of five (5) seconds each if knocked down by a competing car. Such penalty will only be applied if a verbal (radio or other) notification of this infringement is made to the Clerk of the Course or his assistant(s) immediately by a competent Marshal stationed near that bend.

Blue flags on posts may be placed on the outside of bends marking the course. These shall have no time penalty.

b) All route flags should be rectangular (for example 30 x 20 cm or 40 x 25 cm) preferably plastic fluorescent material continuously flying and must be positioned in such a way as to clearly define the track.

They should be positioned on wooden poles of one (1) metre height, of which 25-30 cm should be firmly embedded in the earth.

The flag should be easy to position and to replace.

A part of up to 25% of the flag surface may be used for advertising.

c) The number of flags should be such as to define the course as clearly as possible.

On the inside of every bend there must be at least three flags and in between as many flags as possible.

1.3. Practice

Practice on the track is strictly forbidden from the day of issue of the supplementary regulations. At least one Officially Timed Practice Run shall be scheduled for all Competitors before the Official Competitive Runs begin.

However, in Autosprints, the organising club may allow practice on certain days and at certain times, after express authorisation from the CMF and provided it clearly specifies these in the event's Supplementary Regulations. Infringement will be penalised.

1.4. Drivers

- 1.4.1. No driver can compete with more than one car.
- 1.4.2. A car may be driven by two drivers maximum.

1.5. Co-Drivers

A competitor may choose to participate with a co-driver. In this case, all of the below conditions must be met:

- 1.5.1. The Co-Driver must hold a valid Health Certificate from the CSO, a valid CMF ID and also have a valid competitor's license from the CAA / FIA.
- 1.5.2. Will have all necessary safety equipment including racing suit, helmet, HANS device etc.
- 1.5.3. Will take part **only** as a co-driver and will not be allowed to drive the car at any time and will have to take part in all of the driver's tries, including reconnaissance, practice runs and official runs.
- 1.5.4. The co-driver must be registered at secretariat on the entry form. Change of co-driver is permitted until the secretariat closing.
- 1.5.5. The co-driver may only compete with a single driver.
- 1.5.6. The co-driver will take no championship points or trophy.

1.6. Safety Vehicles

- 1.6.1. An ambulance and a medical doctor should be present throughout the event as close to the start of the track as possible, or at any other suitable location, remaining in the immediate vicinity of the safety officer.
- 1.6.2. The ambulance must be ready to intervene at all times.

1.7. Fire Extinguishers

- 1.7.1. Fire extinguishers should be placed at critical points along the route. **THE DISTANCE BETWEEN THEM MUST NOT EXCEED 250 METERS.**
- 1.7.2. Every car including any safety cars should be equipped with fire extinguishers (hand-held and/or automatic) as specified by the CMF.

1.8. Waiver

The C.A.A., the CMF, the sponsors and the organisers bear no responsibility whatsoever for loss or damage or injury which might arise out of any accident during any event.

1.9. Application for Inspection

It is the responsibility of the organising club to apply in good time to the CMF sub-Committee for Inspection of Tracks, for the inspection and approval of the proposed track.

1.10. Supplementary Regulations

The Supplementary Regulations of each national event in the Speed Championship should include the following information:

- a) Name, address, telephone etc. of Organisers.
- b) Programme, stating addresses and locations (if applicable) as well as dates and times of the following (and of any other functions):
 - Entries Open

- Closing date of Entries (21:00 hours of Tuesday before the event)
- Documentation
- Scrutineering
- Practice Run(s)
- Competitive Run(s)
- Finish
- Posting of official provisional results
- Prize giving

c) Description of the Course including,

- Location of Course,
- Length,
- Number of laps (if applicable),
- Description of track surface,
- Record holder (if applicable) giving date, driver and car data and time recorded,
- Location(s) and times of operation of Official Notice Boards.

d) Names of Officials including all of the following:

- Stewards (stating who is their chairman and their clubs if any)
- Organising Committee (and its chairman)
- Clerk of the Course (and Deputies and Assistants if any)
- Secretary
- The Chief Marshal
- The Chief of Results
- The Chief Scrutineer
- The Medical Officer
- Press & PR Officer

If any of the above (except the Stewards) are not members of the organising club they must have assistants who should be members of the club and whose names should be included in the above list.

e) A clause stating that the event is run in compliance with the International Sporting Code (and its Appendices) of the FIA, the National Speed Championship Regulations and its own Additional Supplementary Regulations (including Bulletins) and approved by the CMF.

f) A short description of the event including the championships and trophies it counts.

g) Any variations from the Standard Regulations which must have been specifically approved by the CMF.

h) The name and emblem of the CAA, CMF and the Sponsors.

A sample document of the supplementary regulations that should be used can be found on the CMF website.

2. SPECIAL ORGANISING CONDITIONS FOR AUTOSPRINT EVENTS

2.1. The Track

2.1.1. Length of Track

Minimum length: 1,000 m

Maximum length: 2,500 m

The CMF may approve a track outside these limits in cases of natural tracks.

2.1.2. Width of Track

Minimum width at any given point: 6 m

The CMF may approve a track of minimum width less than six (6) metres in some sections, provided it is safe.

2.1.3. Terrain

a) Must NOT be sandy or very rocky.

b) Must BE firm.

c) Can be mixed surface, i.e. gravel and asphalt/tarmac

2.1.4. Straights

Any straight or section of the track which does not include a bend deviating from the straight by more than 45 degrees should not be longer than 150 meters except the Start/Finish straight which can be up to 200 meters.

Any straight of more than 80 meters should be followed by a bend deviating from the straight by more than 30 degrees and less than 135 degrees.

2.1.5. Curves

The radius of the inside edge of Curves of more than 90 degrees should be at least 7.5 meters.

Curves should not have a negative camber.

2.1.6. Start / Finish

The Start/Finish must be on a straight.

The distance from the Start to the first bend must be at least 80 metres.

The distance from the last bend to the Finish must be at least 50 metres.

2.1.7. Paddock (*Parc Ferme*)

The entrance to the Paddock should not be situated in such a way as to be entered straight on from the straight which follows the Finish. The entrance to the Paddock should be at least 80 metres from the Finish and should not create an angle with the track of more than 30 degrees.

The Paddock should be outside the perimeter of the track and not be encircled by the circuit.

2.1.8. Circuit Approval

The circuit for each event must be approved by the CMF after a timely application by the Organisers.

The CMF may approve the use of the track if there is any deviation from the above specifications provided they consider it safe and suitable.

3. ORGANISATION

3.1. Regulations

All National events counting in the National Speed Championship(s) will be run in compliance with the International Sporting Code (and its Appendices) of the FIA, the present National Speed Championship Regulations and the event's own Supplementary Regulations (including Bulletins) and approved by the CMF.

3.2. Eligible Vehicles

An Entrant wishing to enter a vehicle for this event must ensure that, at Scrutineering, the vehicle belongs to one of the following classes:

Category	Description
RC2	S2000-Rally: 1.6t engine with 30mm limiter
	S2000-Rally: 2.0 Atmospheric
	Group R5 (VR5)
	Group R4 (VR4)
	Group N over 2000cc
RGT	RGT Cars
RC3	Group A over 1600cc and up to 2000cc
	Super 1600
	R2 (over 1600cc and up to 2000cc - VR2C)
	R3 (Atmospheric/ over 1600cc and up to 2000cc - VR3C)
	R3 (Turbo/up to 1620cc / named - VR3T)
	R3 (diesel/ up to 2000cc / named - VR3D)
RC4	Group A up to 1600cc
	R2 (over 1390cc and up to 1600cc - VR2B)
	kit cars up to 1600cc
	Group N over 1600cc and up to 2000cc
RC5	Ομάδα N up to 1600cc
	R1 (up to 1600cc -VR1A/VR1B)
RCS1	Cars with expired homologation up to 2000cc
RCS2	Cars with expired homologation over 2000cc
RCT1	Cars of type "jeep" (4x4) up to 2000cc

RCT2	Cars of type "jeep" (4x4) over 2000cc
RCE1	Group E up to 2000cc
RCE2	Group E over 2000cc

For the above Class S vehicles, modifications will be allowed within the "Technical Specifications for cars of Series in Speed Events" as described in 3.5.

3.3. Eligible Competitors

- 3.3.1. Any person or legal entity holding a C.A.A. Competitor's licence valid for the current year is eligible.
- 3.3.2. Where the Entrant is a legal entity, or in any case not the Driver, the Driver named on the Entry Form will be held responsible for all the liabilities and obligations of the Entrant, throughout the whole competition.

3.4. Attribution of Points

3.4.1. Attribution of Championship Points

Points will be awarded to competitors taking into account the final classification according to the following scale:

1 st	25 points
2 nd	18 points
3 rd	15 points
4 th	12 points
5 th	10 points
6 th	8 points
7 th	6 points
8 th	4 points
9 th	2 points
10 th	1 points

3.4.2. Final Classification

The Final Classification will be based on the best Official Competitive Timed Run. In case of a tie, the second best Official Competitive Timed Run will be taken into account. In case of a further tie, all competitors with the same time shall be considered to have finished on the same place and they will share the total of the points allocated to their positions.

For example, if both Official Competitive Timed Runs of 2 competitors is the same, and they have the faster times of all competitors (i.e. they are taking 1st and 2nd positions), they will share the total of their positions (25 + 18) and take 21.5 points each.

The order of the results of the two Official Competitive Timed Runs of each competitor shall have no effect on the Final Classification.

3.5. Technical Specifications for Cars of Category S in Speed Events

These cars will compete under the requirements as specified under Appendix J of the I.S.C. with the following modifications and relaxations:

3.5.1. Weight

The weight, as defined in Article 255 4.1 of Appendix J, for cars competing in Category S should not be less than the one shown below:

Engine capacity up to 1000 cc:	720 kg
Engine capacity over 1000 cc up to 1150 cc:	790 kg
Engine capacity over 1150 cc up to 1400 cc:	840 kg
Engine capacity over 1400 cc up to 1600 cc:	920 kg
Engine capacity over 1600 cc up to 2000 cc:	1000 kg
Engine capacity over 2000 cc up to 2500 cc:	1080 kg
Engine capacity over 2500 cc up to 3000 cc:	1150 kg
Engine capacity over 3000 cc up to 3500 cc:	1230 kg
Engine capacity over 3500 cc up to 4000 cc:	1310 kg
Engine capacity over 4000 cc up to 4500 cc:	1400 kg
Engine capacity over 4500 cc up to 5000 cc:	1500 kg
Engine capacity over 5000 cc up to 5500 cc:	1590 kg
Engine capacity over 5500 cc:	1680 kg

For a Turbo-charged engine, the engine capacity must be multiplied by coefficient 1.7.

Ballast may be added to achieve the above minimum weights, in accordance with Appendix J Article 252 2.2

3.5.2. Bodywork

The outside shape must remain as the original production except for the wings which may be outwardly extended and their shape modified provided the original shape of the arch is retained. The wings must extend over and cover the width of the wheels.

Other aerodynamic parts as well as decorative nickel and rubber parts may be added or removed. Parts added should not extend beyond the perimeter of the bodywork.

3.5.3. Chassis

No modification is permitted on the original chassis except strengthening which is free.

3.5.4. Doors

The driver's door must be the same as the original. The material of the other doors may be changed but their original shape must be retained. In the case when a co-driver is entered, the co-driver's door must also be the same as the original.

The window mechanism may be removed.

All doors must close securely and must have an opening-closing mechanism operating both from the inside and outside.

3.5.5. Bonnet & Boot Lid

The material is free but the original shape must be retained.

They should fit exactly in the original areas and be secured with two external latches each.

The bonnet must open from the outside. Any internal opening mechanism must be removed.

Bonnet openings for air intake are permitted but should not expose mechanical parts.

3.5.6. Engine

The engine is free provided the cylinder block is derived from an engine produced or used by this car's manufacturer.

The location of the engine must remain the same.

3.5.7. Gearbox

Free

3.5.8. Drive Axle, Final Drive and Drive Shafts

Free

3.5.9. Interior

The dashboard may be changed and modified. Instruments may be added or removed provided there are no protruding parts of dangerous edges.

The floor panel may be modified to accommodate a different gearbox.

The panels separating the passenger compartment from the engine compartment and the luggage compartment must remain the same.

The fitting of instruments, accessories or spares on the separating panels is allowed provided such additional parts are relatively small and are not considered dangerous to injury.

Piping and wiring in the passenger compartment should be protected and covered and should have no joints or connections within the passenger compartment.

Other than the above, no other objects should be placed in the passenger compartment apart from items provided for in Appendix J.

3.5.10. Radiator & Fan

Free provided they are in a covered area outside the passenger compartment.

They may be positioned in place of the radiator grill as long as they do not protrude beyond the perimeter of the car.

3.5.11. Brakes

Free provided they are of a double circuit and activated by the same pedal.

In case of an indirect type of servo brakes, the servo may be placed in the passenger compartment.

3.5.12. Suspension

The suspension system is free.

3.5.13. Lights

All lights may be removed but any resulting openings or holes must be closed. If spotlights are removed their brackets, if protruding, must be removed.

3.5.14. Towing Eyes

At least one at the front and one at the rear, painted yellow, and positioned so that they are easily accessible without protruding from the car.

3.5.15. Seats

The driver's seat should be firmly fixed and should not be movable during the race. In case a co-driver is entered, the above will also apply for the co-driver's seat.

The passenger seats and their bases as well as the carpet may be removed.

3.5.16. Windscreen and Windows

The windscreen must be laminated glass and should have at least one wiper. The windows may be of plastic provided it provides good visibility and has a thickness of at least 5mm.

3.5.17. Handbrake

As per Appendix J Regulations.

3.5.18. Shields

Protective shields for the engine, gearbox and fuel tank are free.

3.5.19. Extinguishers

Handheld extinguishers as per Appendix J, article 253.7.3 are obligatory. Automatic mounted systems as per Appendix J, article 253.7.2 are recommended.

3.5.20. Fuel Tank

It should be the manufacturer's original or as per Appendix J.

3.5.21. General Circuit Breaker

Must be positioned on the driver's side in front of the windscreen and be clearly marked ON/OFF.

3.5.22. Seat Belts

As per Appendix J, article 253, as in Rally Regulations.

3.6. Entry Forms - Entries

3.6.1. Anybody wishing to take part in an event must send the official Entry Form duly completed to the Secretary of the event at the Organiser's address before the closing date of entries.

Entry forms must be completed and signed by the Entrant, the Driver and the co-Driver when there is one.

3.6.2. No amendments may be made to the Entry Form, except in the cases provided for in the present Regulations.

However, the Entrant may freely replace the car declared on the Entry Form by another from the same Class, up to the moment of Scrutineering.

3.6.3. Should it turn out, at the time of Scrutineering, that a vehicle does not correspond in its presentation to the Class in which it was entered, this vehicle may, upon the proposal of the Scrutineers, be transferred to the appropriate Class upon the decision of the Stewards of the Meeting.

3.6.4. By the very fact of signing the Entry Form, the Entrant as well as the Driver and Co-Driver submit themselves to the sporting jurisdictions specified in the International Sporting Code (and its Appendices), the

present National Speed Championship Regulations and the event's own Additional Supplementary Regulations (including Bulletins) and approved by the CMF.

- 3.6.5. Cars may be driven by one or two Drivers.
- 3.6.6. The Organising Committee reserves the right to refuse the Entry of an Entrant or a Driver or Co-Driver without having to give reasons for the refusal. However, it must send to the CMF a detailed dossier giving reasons for this refusal at the time of closing of entries.
- 3.6.7. The maximum number of Entries may be limited to 50.

3.7. Entry Fees - Insurance

- 3.7.1. The Entry Fees for National Events are as follows:
 - a) **€130,00 per entry.**
- 3.7.2. The Entry Application will only be accepted if accompanied by the Total Entry Fees or by a receipt issued by the Entrant's Club.
- 3.7.3. The Entry Fee includes Third Party Insurance for competing cars.

The Insurance cover will come into effect from the Start of the officially timed runs (including any Officially Timed Practice Runs if these are included in the Official Program of the Event) and will cease at the end of the Event or at the moment of retirement, disqualification or exclusion. There is an excess of **€250,00** for all claims.
- 3.7.4. Damages on Competing Cars and injuries to Drivers are not covered by the insurance provided by the Organisers.
- 3.7.5. Entry Fees will be refunded in full:
 - 3.7.5.1. to candidates whose Entry has not been accepted,
 - 3.7.5.2. in the case of The Event not taking place.The Organisers may refund half of the Entry Fees of those Entrants who, for reasons of "*force majeure*", were unable to start in the Event.

3.8. Amendments to the Regulations - Bulletins

No alterations shall be made to the Supplementary Regulations after the beginning of the period for receiving Entries, unless unanimous agreement is given by all competitors already entered, or by decision of the Stewards of the Meeting for reasons of "*force majeure*" or safety.

Any amendment or any additional provision will be announced by dated and numbered Bulletins which will be an integral part of the present Regulations.

These Bulletins will be posted in the Secretariat, in the Event's Headquarters, and on the Official Notice Boards, and will also be directly communicated to the participants, who must acknowledge receipt by signature, unless this is materially impossible during the running of the Event.

3.9. Application and Interpretation of the Regulations

- 3.9.1. The Clerk of the Course is charged with the application of the present Regulations and their provisions during the running of the Event.
- 3.9.2. Any protests concerning this application will be sent to the Stewards for deliberation and decision.
- 3.9.3. Similarly, any case not foreseen by the aforementioned Regulations will be studied by the Stewards of the Meeting who alone have the power to decide.
- 3.9.4. For the exact interpretation of this text the following definitions apply:
 - 3.9.4.1. "Competitor", used for either physical or legal entities.
 - 3.9.4.2. "Crew", the driver and co-Driver when there is one.

- 3.9.5. The Driver assumes the Competitor's responsibility when the latter is not on board the vehicle.
- 3.9.6. Any incorrect, fraudulent or unsporting action carried out by the Competitor or the Driver will be judged by the Stewards of the Meeting who will impose penalties which may go as far as exclusion.

3.10. Starting Order - Competition Numbers

- 3.10.1. The Start shall be given in the reverse order of Competition numbers, with the highest number starting first.
- 3.10.2. These numbers shall be awarded in the following order (Series 1 being awarded the smallest numbers, Series 2 the next smallest and so on):
- Series 1: The top five (5) in the Speed Championship for Drivers of the previous year or, as from July 1st each year, the top five (5) in the current year's classification.
- Series 2: Drivers currently in the National Drivers Priority for Rallies.
- Series 3: All other Drivers in the Speed Championship for Drivers of the previous year or, as from July 1st each year, the remaining drivers in the current year's classification.
- The above qualification should be stated on the Entry Form otherwise it may not be taken into consideration.**
- Series 4: All other Drivers.
- 3.10.3. The Organising Committee shall supply each Driver with two Competition Numbers.
- 3.10.4. The Competition Numbers supplied by the Organisers, must appear on both sides of the car during the whole Event.
- In case of a car being driven by two Drivers then two sets of Competition Numbers must appear on both sides of the Car. During each Officially Timed Run the number of the Driver driving at that time should appear whereas the other set of numbers should be crossed.
- If it is ascertained at any time during a run that such numbers are not crossed, a penalty of **€40,00** will be imposed for each number not crossed.
- 3.10.5. If it is ascertained at any time during the event that,
- Any Competition Number is missing a **€40,00** penalty will be imposed.
 - Two Competition Numbers of the same Driver are missing at the same time, exclusion will be pronounced.
- 3.10.6. The name of the Driver(s) must appear on both wings at the front of the car or the rear side windows.
- Any car failing to comply with this rule shall be subject to a penalty of **€40,00** for each name missing.
- 3.10.7. After the end of the event the Competition Numbers must be covered or removed.

3.11. Repairs - Refuelling - Assistance

3.11.1. Changes of mechanical parts

3.11.1.1. Throughout the duration of the event, only one change of gearbox and differential per car will be authorised.

3.11.1.2. Only one turbo change per car will be authorised.

Both the above will be sealed at the initial Scrutineering.

3.11.2. Repairs

Repairs are not permitted throughout the Event i.e., from the moment the car enters the *Parc Fermé* area immediately after initial Scrutineering, until the Official Results are Final. However, the changing of tyres, refuelling and minor repairs are permitted in the *Parc Fermé* if supervised

by a Marshal, after the permission of the Clerk of the Course has been obtained.

Failure to comply with the above, entails exclusion.

- 3.11.3. However, if the Scrutineers note that a vehicle seems to be in a condition which is not safe, they must immediately inform the Clerk of the Course thereof.

The Clerk of the Course may refuse to allow the car to take the Start. If, however, he considers that the car may be repaired on the spot and made safe with minor repairs, he may instruct the Driver to effect such repairs, under the supervision of a competent Marshal.

If the car is made safe and judged to be so by the Scrutineers, the Clerk of the Course may allow it to take the Start. If the car is not ready as above when it is its turn to take the Start, the relevant Timed Run is forfeited.

- 3.11.4. It is forbidden to tow, transport the cars or to have them pushed, during a timed run, except to bring them back onto the track, or to clear the track.

Failure to comply with this will entail forfeiture of the timed run, which cannot be rerun.

- 3.11.5. Fuel – Any petrol of up to 102 octanes can be used.

3.12. Advertising

Competitors are allowed to affix any kind of advertising to their cars, provided that,

- a) it is authorised by the Championship Regulations
- b) it is not likely to give offence
- c) it does not encroach upon the sites reserved for Competition Numbers
- d) it does not interfere with the Crew's vision through the windows.
- e) it does not include any tobacco products

Any car not conforming to the above shall not be allowed to start.

3.13. Safety

- 3.13.1. Whenever a car is in motion on a speed event, the crew must wear homologated crash helmets, all required safety clothing and equipment in compliance with Appendix L Chapter III – Drivers' Equipment and have their safety belts fastened.

Any infringement will be penalised by the Clerk of the Course who may also refer the matter to the stewards.

- 3.13.2. Loose items should be securely fastened.
- 3.13.3. Tyres should be in good condition and the minimum depth of tread should be that specified by the CMF.
- 3.13.4. Spare wheel(s) need not be carried in the car. If carried it/they should be properly fastened.

The Start will not be given to any car not complying with the above.

3.14. Start

- 3.14.1. Start of each timed run will be given as follows:

The Starter or a responsible Marshal will direct each car in turn from the *Parc Fermé* to the Starting Line.

Each driver will be advised of his turn to start at least five (5) minutes before he is due to take the Start.

If the car with its Driver does not arrive at the Starting Line as advised or at the latest sixty (60) seconds late, he will not be allowed to Start and will consequently forfeit the Timed Run which he was called to make.

When the car with its Driver on board has stopped in front of the Starting Line and the Starter is satisfied that the Start can be given, the signal is given to the Driver to start. He must start within 10 seconds from the signal. Failure to do so entails forfeiture of the Timed Run.

- 3.14.2. The Start may only be delayed in relation to the scheduled starting time by the Starter in a case of "*force majeure*".
- 3.14.3. A false start, particularly one made before the Starter has given the signal, shall entail forfeiture of the Timed Run and will not be allowed to re-take the Run.
- 3.14.4. The Run will be timed with timing equipment operated by the cutting of a photo beam at the Start Line and at the Finish Line. The timing equipment will provide times to the 1/100 second. The Run will end in a flying finish.
- 3.14.5. After the finish of a run, the Car must report to the entry of the *Parc Fermé*.
- 3.14.6. As soon as he has parked the car in the *Parc Fermé*, the Driver must leave the *Parc Fermé*.
- 3.14.7. To take the Start, the Driver shall be allowed to enter the *Parc Fermé* ten (10) minutes before his starting time.
- 3.14.8. The times taken by the competing cars for each Timed Run shall be expressed in minutes, seconds and hundredths of a second.
The best Official Competitive Timed Run of each Driver will be considered in the Final Classification.
Officially Timed Practice Runs will never be taken into consideration in the Final Classification.

3.15. [Scrutineering before the start and during the event](#)

- 3.15.1. Any team taking part in the event must arrive at Scrutineering with its Driver and car, in accordance with the timetable which will be given in the Regulations.
Cars must arrive at Scrutineering with their Competition Numbers correctly affixed.
Any car reporting to the Scrutineering area more than one (1) hour late, will not be allowed to start, except in the case of "*force majeure*" duly recognised as such by the Stewards of the Meeting.
The Driver must show the car's homologation form as well as any appendices to this form or in the case of cars of Group S, the Special Log Book issued by the Technical Committee of the CMF.
If these are not submitted, the Stewards of the Meeting may refuse to allow the car to start.
- 3.15.2. The Scrutineering carried out before the Start will be of a completely general nature (checking of licences, make and model of car, apparent conformity of the car with the Group in which it is entered, safety check, marking & sealing etc.)
- 3.15.3. To be allowed to start, all cars must be equipped with roll cages complying with the FIA specifications, with fire extinguishers and other safety devices as specified by the FIA and the CMF.
- 3.15.4. No car will be allowed to start unless it complies with the FIA and the CMF safety Regulations.
- 3.15.5. Additional checking may be carried out at any time during the Event.
- 3.15.6. Any fraud discovered will result in the exclusion of the Driver(s) from the Event, as well as that of any Entrant or other person who has helped or been involved in the carrying out of the infringement. This will not

prejudice the fact that the CMF may be asked to impose heavier sanctions.

3.15.7. Without it being compulsory, thorough Scrutineering and/or weighing, possibly involving the dismantling of the vehicles of the Crews in the first three places in the general classification, for those classed first in each group and possibly for any other Crew, may be carried out at the absolute discretion of the Stewards of the Meeting or following a protest or upon the decision of the Clerk of the Course.

3.15.8. Should the abovementioned dismantling be the result of a protest, a deposit, to be paid in advance and covering all the costs incurred by the operation, shall be demanded from the claimant. If the protest turns out to be upheld, the deposit shall be reimbursed to the claimant, and charged to the defaulting competitor.

4. Marshals

The Organisers of Autosprint Events, on every bend, should arrange to position a Marshal who will be able to verify if a route flag is dropped and by which car.

The Marshals should be placed in a position where they are visible and from where they can control visually, the bend for which they are responsible.

In case of an accident, the Marshals should try to keep the public away in order to facilitate access for the ambulance and other officials.

Their equipment must include: a distinctive vest, a whistle, signal flags, means to position route flags. They should also have spare flags and flag posts.

4.1. Signal Flags

Signal flags held by marshals should have the following colours:

- RED: immediate stop
- GREEN: to continue on the course (Not required)

The red flag should be waved at an approaching competing car if the track is not clear or if any other danger or reason necessitates the stopping of the competitor.

5. Paddock - Secretariat - Scrutineering

The Paddock should be considered a Parc Ferme area at all times.

No car should park on the inside of the circuit.

The Secretariat, the Scrutineering area and Paddock should be clearly signposted.

6. Safety

6.1. Spectator Safety

The Organisers should arrange to position a bright-coloured ribbon all around the course for the safety of spectators.

The public should stay behind this ribbon and its distance from the track must not be less than ten (10) metres. At positions which are considered dangerous, this distance must be increased accordingly.

6.2. Lights

Competition cars should not participate with extra spot lights fitted on and their normal lights should be taped over.

6.3. Car Exterior

Competition cars must not, under any circumstances, have anything that is protruding ahead of the front bumper. In cases where there is excessive mud, competitors are allowed to use mud guards but must be positioned in such a way that they do not put in danger any spectator or anyone else in case of an accident, as per Appendix J of the International Sporting Code.

7. Timing

7.1. Equipment

Timing must be done with electronic stop watches.

At least two such clocks must be operational, one of which should be manually controlled.

7.2. Start

If possible, the start should be given with GREEN and RED lights.

7.3. Results

The Results Board should be placed away from the time-keepers.

7.4. Timekeeper Safety

The Timekeepers should be positioned as far away as possible from the track, possibly in a caravan.
