Cyprus Motorsport Federation Website Upgrade - 28/03/2019

The Cyprus Motorsport Federation requests proposals for a Custom web-based application and SaaS website.

Present Address: www.cmf.org.cy

Requirements in no order:

1. CMF should maintain ownership of the website and everything included with it (domain account, analytics account, code, files etc.)
2. Any software, libraries, plugins or templates used must be in their latest version. No obsoletes.
3. New domain (.com) should be provided that will be on under CMF's ownership
4. Ability for email on the new domain (if needed)
5. Analytics integration from Google Analytics
6. Secured with 256-bit SHA-2 SSL for passing credit card information to a payment gateway and also suitable for storing sensitive donor information in the database.
7. Consistent design with design and development of website (html5, css3, bootstrap 4 etc.)
8. If a ready-made template will be provided, license of the template should be provided as well
9. Maintain clean, uncluttered, customer-centric design. Professional but friendly with minimal scroll down and easily navigated by visitors with all levels of proficiency
10. News section (blog) for better online reading experience through an integrated blog post section.
11. The entire website to be accessible from an app via webview on ios and android
12. Website must attain a minimum site score of 80/100 on Google developer site speed test.
13. Secure User registration process with optional registration payments & customizable user rights levels/roles.
14. Private pages, posts and content only accessible by the users you choose to give access.
15. Able to send email to all users through the admin section
16. Training of the website
17. Timeframe to be built
18. VPS server with a choice of 3 providers that CMF will hold the ownership of the account
19. LAMP stack with minimum versions of Debian 9.5, MariaDB 10, PHP 7 and PhpMyAdmin
20. Admin section
21. Users able to contact admins through the users section
22. Interactive online calendar for events of must be print friendly
23. Users able to register for new license and pay online through gateway
24. Users able to register for participation to an event
25. Event Results section able to select previous events (from 2019 onwards)
26. Full-featured web-based rally application with driver profiles, co-drivers, cars, teams.
 - o Able to create new events on a calendar
 - o Able to receive registrations online via online payment method (stripe or paypal)
 - o Validation on all registrations
 - o Able to upload pdf documents or images for registrations etc
 - o Entry-list automatically built from online registrations
 - o Ability for admin to make alternations
 - o Timings (see rallylive.net)
 - o API interface to handle times posted via text-based or web-based post methods
